

### January:

Wrap your water heater in an insulating jacket

### February:

Buy or make draft stoppers to place in front of windows

### March:

Opt out of junk mail

### April:

Switch to non-toxic cleaning products

### May:

Plant a container garden

### June:

Vacuum the coils on the back of your refrigerator

# GO GREEN IN YOUR APARTMENT, ONE MONTH AT A TIME

Adopting an eco-friendly lifestyle doesn't have to be scary – one small change at a time can make a difference! With just one project per month, you'll find that it's easy being green in your apartment.

### July:

Buy a reusable water bottle and/or insulated mug

### August:

Plug small appliances into a smart power strip that can be turned off

### September:

Buy a water-saving shower-head

### October:

Change your air filters, or ask your landlord to change them for you

### November:

As your incandescent light bulbs burn out, replace them with CFLs or LEDs

### December:

Give eco-friendly holiday gifts
