SAVE MANGROVES

DID YOU KNOW?

The Sundarbans, located in the south-west of Bangladesh between the river Baleswar in the East and the Harinbanga in the West adjoining to the Bay of Bengal, is the largest contiguous mangrove forest in the world.

One mangrove tree removes
308kg (0.3 tonnes) of CO₂ from
the atmosphere over its growth
life, which is 12.3kg per year.
