

# WORLD NATURE CONSERVATION DAY

28.07.2020

*Let us create a healthy environment  
to ensure the well being of the present and future generations*

## WHAT WE CAN DO?

- **Reduce, reuse, and recycle**  
Cut down on what you throw away. Follow the three "R's" to conserve natural resources & landfill space.
- **Conserve water**  
The less water you use, the less runoff & wastewater that eventually end up in the ocean.
- **Plant a tree**  
Plants help in saving energy, clean the air & help combat climate change.
- **Bike more drive less**  
Exhaust from vehicles causes immediate & long-term effects on the environment. Less driving means less pollution in the air.
- **Shop wisely**  
Buy only when it is needed & always carry a reusable shopping bag.
